

IMPORT PERMIT

The CENTRAL VETERINARY RESEARCH LABORATORY (CVRL) - Dubai is authorized to import animal samples (including carcasses up to 25 kg bodyweight) for the purpose of carrying out diagnostic testing or for research purpose.

Conditions:

1. The samples or carcasses must be transported in a leak proof container consists of two layers and must be packed in such a way as to minimize the risk of breakage and the package must contain sufficient absorbent material to absorb any accidental leak. Any leakage of material out the package must be reported to Ministry of Environment & Water (MEW), UAE.
2. The package must be labeled with a label stating (samples for testing-imported under UAE- MEW permit No CVRL-1/2007). And it must be addressed to Central Veterinary Research Laboratory (CVRL) - Dubai P.O. Box 597 - Tel. 0097143375165- Fax. 0097143368638- Email cvrl@cvrl.ae
3. Package must be sent so as to arrive in a working day and the laboratory must be notified between 24-48 hours prior to shipment that the samples are being sent. CVRL must maintains records of such notification.
4. Package must be sent by a recognized courier and must be taken directly from the port of entry to the laboratory (CVRL). It is the responsibility of the CVRL to check that notified samples have arrived and if they have not arrived within 72 hours to recheck with the sender that samples were/ were not dispatched ,and if they were, to liaise with the courier company to ascertain where the samples are.
5. Whilst held at CVRL, all samples must be handled and stored in such a way to prevent the risk of infection to any person or animal, and then destroyed. All the related containers must be destroyed or thoroughly cleansed and disinfected in a way that will eliminate any possibility of spreading infection.
6. A record of the number of the samples, animal identification and date of receipt must be kept for at least 12 months.
